My dear Eileen + friends.

May I greet you all at  
your celebration of the great  
Victory of 1918 which not only  
crowned a great campaign  
with success but was an  
encouragement to women every-  
where to make further efforts.

There are still many millions  
of women who have yet to win  
political freedom. Let us not  
forget them. For ourselves  
there is much to do.

Here, as I am still on

9131/55

the list of invalids the celebration will be a very modest one just 4 of the old gang (3 suff<sup>te</sup> prisoners) + Miss Rye who as a girl in her teens was inspired by the suffragettes. They are kind enough to be coming to us. My husband did much in the Meis League. In London too the Suff<sup>te</sup> Fellowship will celebrate our 26<sup>th</sup> political birthday + many women renew their determination "To Use the Vote."

I shall be picturing you all on Saturday + be with you in spirit + in comradeship.  
Edith How-Martyn.
