My dear Genl. Fox

I have sat your letter
wth port I see you agree
wth me as to technical Education
in New schools, now incorporated
as the Act is framed —

Herwood has been held every
week me wth the same party
but I am unable to go, &c

is a very decided Liberal
in Religion as well as
Politics & is or was a Barrister
at Manchester, & was member
for Lancaster & took an
active if not a very wise
part in the House on questions
relating to Education -

Mr. Grey has written
on the Education of women
& Sir Charles Lyell tells me

is a very sensible & judicious
man. - I shall certainly
give her a vote - Have
you read in the Times of
day what Mill says
at Gressend on the subject
of Elementary Schools, I think
her views very sound -

I return Heywood papers
& when he has paid 57,000
~~House~~ cards (not to tea)

on Mr. Gues' behalf - He
is very liberal in regard of
charges on the respondent

Your very

Edw. Ryan
