Madam

In many weeks ago I was
asked to help at the Birmah
bazaar & I gladly consented to
appear at an entertainment
as I was enabled to be on

the Committee

I should much like to know why
after advertising my name I
was not sent any further
notice; fearing there might be

some postal error I rang up the
Empress rooms on the Friday evening
& had a long talk with some
lady who undertook to see that
the matter was put right. Since
then I have heard nothing.
My reason for inquiring is that
I make it a rule never to fail
in appearing when once my name
have been given publicly, &
strongly object to giving the public
any chance of saying that I failed
to keep my promise, a thing they
are only too ready to do

Yours truly

Wa Moore
