Dear Members of the Womens Freedom League,

I regret very much that I cannot be present on the occasion of our 21st anniversary of the passing into law of the first Bill giving votes to Women

It was at a time when women were doing valuable work for our country, war was being waged and women who had been watching the situation were very much occupied in trying to help those who had suffered so dreadfully during the war-time. To the members of the Womens Freedom League which is still living and doing good work I wish all members and principally the young every success for the future, as I believe we of former generations have accomplished a great deal -but much has yet to be done.

My message to you all, is, Work for peace through Democracy, Condemn war, and Dictatorships strive for Liberty Equality, and Fraternity.

your First President,

C. DESPARD.

Charlotte Despard
