Dear Mr. Chavall

I think "Ohoes Thacker's"
 really expressed my views

- 1st. That a Duffell Society
 is not the Soc. for talking
 up definitely political
 (so to speak) work in
 connection with war or peace
- 2nd. How anti war propaganda
 is at the present moment
 particularly liable to be

misunderstood & our Suffrage
cause has already sufficient
prejudices to struggle against

3rd The world is at war &
we now have not got votes
& any difference the

Suffrage Societies could
make in the distance of
Europe would be little &
the loss to the Suffrage
cause in the eyes of the

would great & certain
I think Mr. Fawcett's
attitude is a wise one (if
there are her views as well
as "Oscar Strachey") & I am
glad the majority of the
Union have decided in
this sense

But of course I also think
private individuals need
not have such consideration

9131/33

They appear to me to be a
a proposed to a Society definitely
formed for a special object
& that not an anti-war
object.

It seems to me a pity
that Mr. Pape sh. resign
from the Society when the
Society is fully in agree-
ment with his views!

Personally I think we
(the Executive Com) went
beyond our powers in decid-
ing to do so and in
Portant re education & welfare
