My dear Philippa

Here is the Report
on the A.T.S & copies of
of the B.F.U.W. letter &
answer from War Office.

I shall be interested
to have any comments
from you. Now that Captain
Napier has stated in
parliament that "most of
the recommendations have
been put into force" &
Mr. Knox has been
appointed one may hope

for further improvement,
do you know whether
much can be expected
of her? It does seem
important to strengthen
the higher command, &
though hearing that a
good many officers have
been removed we wonder
what hope there is that
bad spots are being adequately
tackled. The War Office letter
gives an opening for us to
speak in any real evidence
of bad conditions but it's
naturally hard to get concrete
facts & we don't want to
stir trouble. I should be
glad to know that the Linds
district had changes in its
personnel, having heard adverse
comments on it. & Lady Laurence's
leadership. Yours very
truly
Hon. Lawrence
