THE LORD HALDANE

"There's no sort of use in asking me," said the Io tman, "and that for two reasons. First because I'm on the same side as you, and second because I don't intend to do anything."

"Please, then," said Alice, "what am I to do?"

"I shall keep my place," the Footman remarked, "till next year, or may be on and off for years and years."

"But what am I to do?" said Alice.

"Anything you like," said the Footman, and began whistling.

"Oh, there's no use in talking to him," said Alice, desperately, "he's perfectly idiotic." —"Alice

(Lord Haldane, in refusing to meet a deputation of electors, has written that until public opinion becomes clear about a question which has been unduly obscured by militancy, and until a House of Commons can be found which will make a definite pronouncement on woman suffrage, he as a strong supporter of Women's Enfranchisement will continue to concentrate on the attainment of these conditions.)

To the brave women who to-day are fighting for freedom: to the noble women who all down the ages kept the flag flying and looked forward to this day without seeing it: to all women all over the world, of whatever race, or creed, or calling, whether they be with us or against us in this fight, we dedicate this paper.

THE OUTLOOK

Three by-elections are taking place this week. West Lothian polls to-day (Friday), Reading to-morrow, and Keighley next Tuesday. In each of these con stituencies we are asking the electors to record a vote

against the Government candidate in order to mark their disapproval of the way in which the Government has handled the woman suffrage question.

False to Liberalism

The theory of Liberalism is government by the people; and in one of the leaflets which the Liberal publication department has been circulating broadcast in the constituencies a claim is made that the Liberals have been the means of bringing about all the extensions of the franchise. But to-day it is the Liberal Government which is blocking the enfran-chisement of qualified women. Women have asked for The working men have supported this demand, by resolutions carried by overwhelming majorities at the Trade Union Congress and elsewhere. The House of Commons has supported this demand by carrying the second reading of woman suffrage Bills. But the Government has prevented their passage into law. Therefore the present Government is false to Liberal principles, and Liberal electors can only bring their falsity home to them by voting against their candidates at the polls.

Broken Pledges

Not only have the members of the present Govern-

ment been false to Liberalism, they have also been false to their pledges. In July, 1911, the Government promised to give fair play in 1912 to the "Conciliation" Bill for woman suffrage, and on the strength of this pledge women withdrew their opposition; yet in November, 1911, Mr. Lloyd George announced with glee that Mr. Asquith and he had "torpedoed" the Conciliation Bill. Later, when the Electoral Reform Bill was to be introduced, all the members of the Government, including Mr. Asquith, Mr. Lloyd George, Sir Rufus Isaacs, and Sir John Simon, pledged themselves that it should be so drafted as to be capable of amendment to include women; yet, as a matter of fact, it was not so drafted, and when this was discovered no satisfactory substitute for the unredeemed pledge was ever given. How can electors trust their destinies to men who are so shamelessly

Treatment of Political Prisoners

The electors are also asked to vote against the Government because of the way they have treated women in prison. From the earliest days, when woman suffragists were imprisoned for purely technical offences, the Government refused to recognise

their position as political offenders, and insisted on | those who adopt this weapon in the cause of political treating them as common criminals. When this pro- liberty take their life in their hands voked the heroic hunger strike they met it by the barbarous practice of forcible feeding. The Home their votes the Liberal cadidates at the election.

We remind the working men in the constituencies that in West Lothian the appeal which we are making to the electors is endorsed by the Independent Labour Party Federation, which has issued a manifesto urging men to vote against the Liberal candidate on account of the Government's behaviour to women. We urge upon electors the importance of acting upon this advice, and of bringing to an end by their decisive voice the terrible conflict raging round the enfranchisement of women. All those who fail to do so must in future share the responsibility of what

Lord Haldane "Concentrating"

Lord Haldane has refused to receive an influential deputation of the Northern Men's Federation, which sought an opportunity of waiting on him with regard to woman suffrage on the occasion of his approaching visit to Edinburgh. In the course of his letter announcing his refusal, he says :-

Until public opinion becomes clear about a question which has been unduly obscured by militancy, and until a House of Commons can be found which will make a definite pronouncement for Women's Suffrage, you cannot hope to get further. It is therefore on the attainment of these conditions that those It would be interesting to know what form Lord Haldane's "concentration" is taking. To outsiders it would appear that he was not only doing nothing, but supporting by his connivance the hostility of the Government to the women's demand.

Newcastle Town's Meeting

Following upon a requisition signed by over 800 citizens on October 1 last, a Newcastle town's meeting was held last Thursday to discuss the position of woman suffrage. The Mayor presided, and an important and animated discussion took place. After an anti-suffrage amendment had been defeated, a resolution, calling upon the Government to bring in a Bill for the enfranchisement of women, was carried by an overwhelming majority. In this way Newcastle has set a valuable example which other towns will do

The Police and the Mob

The failure of the police to afford any protection to the person or property of suffragists when attacked by an unfriendly mob is now becoming notorious Last week we commented upon the sack of the W.S.P.U. offices at Bristol by a body of Su action brought by the law-abiding suffragists at Mr Hastings against the town authorities for damages incurred in consequence of the failure of the police Mi to prevent injury to a hotel in which the suffragists took refuge. Judgment in the case is expected to be delivered in the course of the week after next, and is Miss awaited with the greatest interest.

Death of a Hunger Striker

The grave danger incurred by those who adopt the hunger strike in prison is brought vividly home by the death in Dublin of Mr. James Byrne, Secretary | L of the Kingstown Branch of the Irish Transport | Mi Workers' Union. Mr. Byrne was charged with in-Workers Union arr. Byrne was timidation in the first week of the lock-out; he was remanded in custody, bail being refused. He at once Contributed 0 19 0 Mr. and Mrs. E. Haviland Hillman John B. Seymour, 6 7 5 Esq. entered on the hunger strike, and after four days was released. Returning to his work on behalf of the Union, he was too weak to bear the strain, and suc-

Forcible Feeding Goes On

The prison authorities still continue, under the Secretary is now employing both forcible feeding and instructions of the Home Secretary, to apply forcible the provisions of the Cat and Mouse Act in a vain feeding to Miss Rachel Peace in Holloway. We attempt to keep women in prison. Both these methods understand that she is being fed three times a day, inflict untold torture upon those who, whatever view and she is afraid of losing her mental balance through may be taken of their action, are animated by their the continuance of this torture. She is still a pri zeal for the public good. Liberals who respect the soner on remand, and is due to take her trial next great traditions of their country cannot condone this | Tuesday, November 11. Meanwhile, Miss Richardbehaviour of the Government by supporting with son is still too ill to undergo the operation for appendicitis.

Items of Interest

The members of the Royal Commission appointed to inquire into Venereal Disease consist of ten men and three women. The women are Mrs. Scharlieb M.D., Mrs. Creighton, and Mrs. Burgwin. In addition to the disparity in numbers between the sexes or the Commission, it will be seen that there is not a single representative of the advanced women's move ment. A special article upon the whole question is published on page 81 of this issue.

The special week of prayer organised by the religious woman suffrage societies comes to a close

A piece of great interest to suffragists is being performed by Miss Horniman's company at the Court Theatre-"Jane Clegg," by St. John Ervine. We propose to give a review in our next issue.

DINNER ON DECEMBER 4 In Honour of the Literary Contributors

The dinner at the Connaught Rooms on Thursday December 4, in honour of the Literary Contributors to Votes for Women, already gives promise of being a great success. Mr. and Mrs. Pethick Lawrence have already received acceptances from many distinguished men and women, and the speeches are likely to be of special interest.

Members of the Fellowship who wish to be present and to bring guests, can obtain tickets for the dinner, price 7s. 6d. each, from The Ticket Secretary, Votes FOR WOMEN, 4-7, Red Lion Court, Fleet Street, E.C.

PAPER-SELLING REPORT

Several Fellows went down to Reading last week to sell the paper at all the various by-election meetings. A good and steady sale is kept going by our regular workers in London, and others help at etings, and so on. New workers are asked to come to the office and discuss matters with the Paper Selling Organiser, who attends throughout the whole of Thursday and any other time by arrangen

BOOKS ABOUT WOMEN

"THE TRUTH ABOUT WOMAN" *

It is characteristic of the militant Suffrage Movement that it has always steered clear of Feminism. It wages its battle not as for a sex, but as a fight for humanity, and perhaps that is why some of us do not feel particularly drawn to that large class of books that treat of "Woman" as if she were a creature to be studied, classified, and "improved" from an external standpoint. To tell the whole truth about woman in one volume would be as great an achievement as to tell the whole truth about man, and we admire the courage of C. Gascoigne Hartley in facing the courage of C. Gascoigne Hartley in facing such a colossal adventure.

The author's thesis seems to be that those who are working for the emancipation of women will never get on to the right line until they take as their guiding principle the biological fact that the main stream of racial life flows through the mother, until they realize that for women the pursuit of individual ends is futility, and that their salvation lies in their

ends is futility, and that their salvation lies in their "racial responsibility." Starting with the question—
Is this difference we have found between the sexes a natural, inhorn quality of woman, whether it be physical or psychical, that must be regarded as a right and unalterable part of her woman character, or is it an acquired, and therefore changeable, modification that has been superimposed upon her through the artificial sexual, social, and economic circumstances of her environment?

-she takes us through the biological evolution of the -she takes us through the biological evolution of the sexes, from the lowest organisms upwards, through the changing social status of women from the earliest historical times, on to the "present aspects of the woman problem." Of these sections, by far the most interesting and valuable are the first two. The author has read very widely for the scientific part of her work, and there is always unfailing interest interesting the problem of the scientific part of the work, and there is always unfailing interest in considering the life-stories and courtships of some insects and animals, and particularly of birds. From the biological importance of the primary lemale organism from which the male element developed, from the importance of the female and her superiority to the male in many stages of animal life, from the power and position of women during the "Mother Age," the writer deduces that the inferior position of women from later historical times down to our own day is due to environment and not to anything inherent in sex; that many of her qualities

bresentment of the attitude s conceits that we are lisappointed. The final chapter is disturbingly vague. It seems as if this long book full of so much intellect and labour ought to have led up to something more than a restatement of the claims of motherhood actual or potential. Not that we would underestimate in any way the claims of that ideal. The majority of women always will be and desire to the woman's movement in the "Times," and who, while repudiating the earlier doctrines of the "Anti," which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman, which were based on the alleged inferiority of woman all who. The majority of women always will be and desire to be mothers. But one does not know why so much more glory should be ascribed to motherhood than to fatherhood; nor why it should be extolled as if it were a virtue. The author thinks that motherhood will be transformed; that modern women have lost sense of the power of love; that sexual passion has for generations been drilled out of them. She wants them to be awakened anew to the power of passion. That is a useful and interesting view, but it may be pressed too far. There is a danger of placing too much emphasis on the physical side of woman's existence. And here we have some serious points of difference with our author. Life has room for many ideals of character and action; she would seem to restrict woman to only one. The ascetic ideal is one which the world cannot afford to lose, and which is necessary to certain temperaments. Religion is not, as she seems to think, a mere substitute for sexual passion. Her attitude to religion, illustrated as it is

White predating the earlier double with which were based on the alleged inferiority of woman, are at great pains to prove that Nature has made her unfit for the possession of political power. In her preface, Mrs. Colquhoun at once reveals her failure to grasp the Suffragist's outlook by the naïve remark—"It is evident to women who know their own sex that the demand for the parliamentary franchise is symptomatic of a far deeper and more fundamental discontent than can be met by the mere granting of votes for women." But even while inadvertently agreeing with the suffragist that the vote is the symbol of something much wider than political freedom, the writer narrows the whole question of the unrest among women to the contention that (in her own words)—

Women was obviously intended by nature to become a mother; modern social requirements make it obligatory that should be legally married before doing so; there are not enough husbands to go round. What do you propose to do with the women who are left over?

If read as she seems to think, a mere substitute for sexual passion. Her attitude to religion, illustrated as it is by a very trivial ancedote, is indeed curious. I have not space here to go into this point or into her complete misunderstanding of the militant Suffrage Movement. I am inclined to think that she does not realise how far women have already progressed towards spiritual freedom. Nor do I find it easy to anderstand her attitude towards prostitution. I most here words

Could a statement much more careless be made! Again she says :-

I am inclined to accept the estimate of Lippert that the principal motives to prostitution are "idleness, frivolity, and the love of finery."

This last is, I believe, a far more frequent and stronger factor than actual want.

And what is the meaning of her saying, "These women . . . must be re-admitted into the social life of our homes and the State". This whole chapter reads very strangely.

Probably if, in a later edition, the author were to amplify her modern section, we might find it as interesting as the earlier parts. As it stands it is sketchy; but we must thank her for giving us, on the whole, a book that is full of ideas and suggestions as

"MINDS IN DISTRESS"+

"MINDS IN DISTRESS".

This is quite a remarkable book, with its very original collection of ideas on that very subtle and illusive part of our make-up which we call the mind. The author, as the title indicates, deals with the mind in its healthy and unhealthy state, and particularly in those conditions known to us by the names of hysteria and neurasthenia. Whether from the medical standpoint the writer's ideas are worthy of accentance we cannot, of course, judge, but from the acceptance we cannot, of course, judge, but from the suffragist's point of view the book is full of interest. In his preface the writer lays down very clearly that in using the definitions "masculine" and "feminine" types of mind, he does not necessarily mean "male" and "female," as these two types are by no means solely dependent on sex. The types as such are distinct enough, but the majority of men and women are tinct enough, but the majority of men and women are made up of a combination of both. This is, of course, precisely what the suffrage speaker is more or less always trying to convey, and now we have an accredited man of science telling us, not only theoretically, but from the results of practical tests and observation, that this is a simple fact. Then why in Heaven's name all this pother about granting women a vote? In weighing up the two types, Dr. Bridger comes to the conclusion that the feminine type is the higher of the two—in fact, "the very highest attainable type of mental development," while the purely masculine is ofttimes "little higher author says that by conviction he is an anti-s gist, unless perhaps he thinks too many women are of the masculine type of mind? Interesting and original as it is, the intense sanity of this book makes it doubly welcome. It is regrettable, however, that the author is not so gifted in literary expression as in originality of ideas, the very awkward and long sentences in which these ideas are couched often making their meaning difficult to grasp.

The bully doubt in this scrupulous bishop's mind was whether the generic term homo, used in classical Latin of both sexes, could rightly be used of women. book on "The Feminist Movement," Rosa Mayreder, in "The Position of Women," and many other distinguished people, have mentioned this Council of Maçon, but none of them ever tell us their authority or refer us to any fuller statement on the matter.

Of course, on the face of it, the thing is impossible. No Council of the Christian Church could have discussed such a question. But that does not prevent people still quoting the Council of Maçon as a reproach to the Church. Now something must have happened at some Council for this legend to have arisen, and, leaving aside all decisions on the soul at

It was for this reason that "militancy" was inaugurated. Finding that woman suffrage had of convincing them that they cannot afford to leave become reduced to a lifeless academic discussion at a woman suffrage to be settled after the next general very few drawing-rooms and tea-parties, a body of election, but that they must get it out of the way women determined to revivify it by forcing it back | before that election takes place.

into the political arena. With this object they sent deputations to the Prime Minister at the House of Commons, they heckled Cabinet Ministers at their meetings, and they took an active part at all Parliamentary elections.

Step by step as time has gone by the methods adopted by the advanced body of suffragists have changed, and many of them, though still included in the term "militancy." are to-day widely different from those employed in the first instance. And it is a curious fact that the most militant part of the present suffrage campaign has to a large extent ceased to be of a primarily political character. The destruction of letters, the burning of houses, and other similar revolutionary actions are directed not against the Government or against the members of a political party, but against the public, and are defended by those who do them on the ground that they are the only means of bringing home to the public the fact that women will not any longer conent to continue in subjection. It is true that the Home Secretary, in his capacity as Chief Gaoler, is brought into the conflict whenever those who commit these offences are caught and imprisoned, and that Mr. McKenna, by his appalling inhumanity, has brought down upon himself the censure of all thinking men and women all over the world. But this is equally the case with all other militant action resulting in imprisonment. It does not alter the fact that, so far as this part of the advanced campaign is concerned, propaganda by revolution has taken the place political pressure by militant action.

What has been lost in one direction must be gained another, and it is therefore of the utmost importance that the existing methods of exerting political pressure, both militant and constitutional, shall be extended and developed, and that, if possible, new and additional methods shall be brought into play. One of the most valuable of the newer methods is the organisation in each constituency of a body of electors prepared to make this question of woman suffrage the supreme political issue at the present

In an important letter to us, which we print elsewhere, Mr. John Scurr outlines a suggestion that a The essential feature of the modern women's move- joint committee of the existing men's societies shall the demand made; and secondly, as to the nature of the campaign by which that demand is to be enforced.

Let us consider the admission made in the Report already quoted—"that the large majority of infected persons are males, and these are very important agents for spreading the disease." And then let us hink for one moment how this idea of compulsory ification of pregnancy and subsequent examination of expectant mothers would work out in actual practice. One of these "infected persons" marries and infects his young wife, freeing his own system, it may be, of the poison he has contracted. If no conception takes place, the girl's body becomes the home of this terrible disease. In the alternative event, the embryo absorbs the poison. In the latter case, if some of the recommendations now being made are adopted, the pregnancy will be notified under ion and "systematic measures" will then be taken. Women May be Caught Napping Again

In spite of the great awaken place amongst women it is still possible that we may be caught napping. At any moment an apparently nnocuous suggestion that we ourselves may have been inclined to favour and to support may be twisted and turned into a frightful menace. Even a Bill that has been carefully drafted by men and women together can be altered in a Parliamentary Committee up stairs by a carefully packed majority of selected members

The present position is full of grave peril. New schemes of legislation are a direct menace to women, especially when they are designed to deal with problems of sex. No such problem ought to be touched until women have the vote. The only remedy is an intense vigilance that knows no sense of security and that pounces upon and unmasks the lurking peril It is at its inception that we must resolutely fight the idea that the ravages of sexual disease are to be stayed by letting man go free of all compulsion and visiting the penalties in the form of compulsory remedies upon women. When once the idea of compulsory notification of pregnancy has gained ground in the public mind, it will be almost impossible for

Those who have always been readers of Mark utherford's books will not be in need, perhaps, of a edition of his works at this time of day. But he as one of those writers who are slow in coming into air own, and there are many people who only learned know him after his death, which took place a few onths ago. For them the new-and complete edition f his books, y just issued, in six volumes, at the straordinary low price of one shilling a volume, ill be a delightful pessession, and will probably be the means of making known to the public those of his ovels which have not until now appealed to a large trole. Everybody has read or heard of his "Autolography" and "Deliverance." His novels—"The kevolution in Tanner's Lane," "Clara Hopgood," Catharine Furze," and "Miriam's Schooling."—hould be equally well-known among suffragists, specially the first two, the scene of which is laid in the Reform Bill period and in the time of Mazzini espectively. But they all make their appeal to comen fighting for freedom, and might well be read or that reason alone, even if they had not also he gentle attractive charm that is the special haracteristic of all Mark Rutherford's work.

Mrs. Alco Tweedie's interesting book, "Through Finland in Carts," has now been published in an excellent Shilling Edition.† A most useful and instructive appendix has been added, dealing with Finland's political position at the present day.

Those who read Mr. W. Lyon Blease's "Emancipation of English Women" when it was first published will be glad to hear that a new and cheaper edition; has just been issued which will bring it within the buying capacities of a larger circle of readers than were able before to purchase it. Looking into it we are again impressed by its value as a summary of the women's struggle for enfranchisement from the time of the Restoration until the present day; and the bibliography will be of great interest to all students.

New Form of Militancy

Up to the time of going to press, Miss Sylvia Pankhurst had not been re-arrested, though her licence has now expired some time, and it was feared that the police might attempt to take her both after the Daily Herald meeting at the Albert Hall last Saturday, and again after her speech at Hackney last Monday. On the latter occasion Miss Pankhurst announced a scheme for the formation of a corps of volunteers for the protection of Suffragetts.

Maybe it used to be necessary.

It isn't now at any rate—not since Fels-Naptha came.

Those who have tried "the Fels-Naptha way" with other soaps may doubt it.

THE SEVEN STAGES OF BECOMING A SUFFRAGIST

Where the Roman Women Failed
One could not too strongly emphasize nor adays this failure of carrest, capable Roman women to push their victories to their practical conclusion. There was a serident tendency in some quarters to-day belittle the value to women of political enfranchisement, and many who acknowledged that reforms in economic and social conditions were urgently over women of political enfranchisement, and many who acknowledged that reforms in economic and social conditions were urgently of the value to women of political enfranchisement, and many who acknowledged that reforms in economic and social conditions were urgently one would really be of little service. A SUFFRAGIST POET IN 1867
It makes us wonder whether we have travelled very far in forty-six; years when appeared in the paper, Fun, as long ago as March 2, 1867, the year of the second Reform Bill and John Stuart Mill's Woman Suffrage resolution in connection with it. The poem has an additional interest for us, as the copy from which we are able to reprint it, and which had been preserved for nearly half a century, was given to one of our paper-sellers the other day by a cabman. Here are the verses:—

CORRESPONDENCE

ANTI-SUFFRAGE ANONYMITY

To the Editors of Votes for Women.

Dear Editors,—Is it not time the fact that anti-suffrage men so generally skulk behind anonymity should be realised and appreciated? The other day it was a medical practitioner, then a military father of daughters, more recently the incumbent of a parish. These courageous persons one and all "preferred to remain anonymous." They are not the sort of persons who are usually reticent about anonymous?" They are not the sort of persons who are usually reticent about seeing their names—Jones, L.R.C.P.; Brown, Vicar of Slocombe; and John Robinson, Major—in print. They are people who are ashamed to be connected with the sentiments which they itch to announce in the newspapers, and they are afraid of the opinion of the decent women in their neighbourhood. The Anti-Suffrage Society promised to make it manifest that for one woman in favour of her enfranchisement 'ten were against." This inchesiment them were against." This inchesing anonymity of men does not look. Works for Women Kellowskip had to to counter when paper-seelling last week a Keighley, where at the beginning of the campaign, all the irresponsible youn roughs, where at the beginning of the campaign, all the irresponsible youn roughs, where at the beginning of the campaign, all the irresponsible youn roughs. The first person we met in Keighley, writes our correspondent, "was a Suffra gist, spattered with mud all over he face, and she warned us to look out fo ourselves. The National Union speaker had been mobbled by your roughs. We sold sixty-three copies and ing anonymity of men does not look | re

thise it!

And this week I have received a publisher's notice of an anti-suffrage book the author of which describes himself as "a popular and well-known novelist who desires to remain anonymous!" Women novelists, dear Editors, used in the past to be anonymous lest the independent minded Briton should fail to recognise talent in a "petticoat"—are male novelists about to hide behind anonymity for fear of women Daniels come, at last, to (just) judgment? But the "popular and well-known" one hangs out the purple, white, and green flag on his circulars! He is, in fact, hiding behind the women's petticoats in the hope, doubtless, of attracting an audience which would not be attracted either by his subject or by his popular and well-known name.

When a London daily published a "Woman's Platform" it discouraged anonymity, and it will be remembered that while Suffragists signed their names, the "antis" for the most part kept their names to themselves. What is there beind these facts? To ease your sex vanity by vicious outpourings is quite comprehensible in a certain type of male; but it should be understood once for all that to do this under cover abolishes the last rag of pretence that you are crusading on the last of the properties of the similar functional to the sunder cover abolishes the last rag of pretence that you are crusading on the last of the properties of the similar functional transport of the properties of the similar functional transport of the similar functional transport of the sunder cover abolishes the last rag of pretence that you are crusading on the last of the sunder cover abolishes the last rag of pretence that you are crusading on the last of the sunder cover abolishes the last rag of pretence that you are crusading on the last of the sunder cover abolishes the last rag of pretence that you are crusading on the last of the sunder cover abolishes the last rag of pretence that you are crusading on the profession of the sunder cover abolishes the last rag of pretence that you are crusading on the

On the Titanic there were two men who On the Titanic there were two men who saved themselves in women's clothes. Those men were a parable. They had ardently concurred, no doubt, in the disabilities imposed on women in view of certain privileges she enjoys and the male does not. They had, of course, always despised "petticoats." But when the moment came for the petticoat of disability to become the petticoat of privilege, they filled this garment for them. they had never seen any sense in

only. They had never seen any sense in petiticats before.

The men who now fight anonymously against women are not unlike these gallants. Women serve them hand and foot, honest women shake their hands in their own and their friends' drawing-rooms—their spiteful thoughts of woman must out, but they don't mean to lose her kloving kindness thereby, and they dare mot face her scorn. They dare not drown themselves, but perhaps they can help to push the woman under. So they say their little say, but under false colours; they filch from the woman the esteem and the kindness which would be withheld if she exceptised their disguise.—Yours, &c.,

Some of the English newspapers having been at great pains to represent Mrs. Pankhurst's tour in America as a failure, the London Budget sent her a cablegram last week asking if there was any truth in this report, and whether her engagement to speak at Indianapolis had been cancelled, as was reported.
