Dear Mrs. B.G.

I enclose a cutting about the new Tory Star Pat Hornsby-Smith as if she is really not a feminist we can't vote for her!

Although she is no doubt extremely clever!

The Recorder appears to be a little confused however on that point re equal pay, and what feminists want.

Would you think it worth while writing to the Recorder, in answer to this letter, *to put them straight.*

They are quite amenable to every point of view.

The other cuttings are just to draw your attention to the policy of what I call the reactionary bodess, as although their point of view re marriage is admirable, it needs watching!

I have a young friend of 38, who may be very valuable to the feminist movement, and I want you to meet her, when we can find time-- she is a fully trained secretary, but is hampered as we all are-- I am glad to say she has joined M.W.A. and I hope may bring in some of her friends.

Re Drafting Co. I have got a copy of the Yugo-Slav Marriage Laws and am studying it, and if you like I will send it on to you, if you would care to have a look at it, before our next Co.

Do you think at a suitable time we ought to get a lawyer to give us advice on the Drafting Co.

In haste,

Yours sincerely,

*Robert
Hutchings*
