Dear Miss Norton,

I found Soltesby's bill for photostats among the papers and am returning it so that you can send it to Arthur Crook for the T. L. S. to pay.

Thank you very much for the delicious lunch and for all your kindness yesterday. I have now read all the letters and they are immensely interesting. G. H. Lewis unfortunately doesn't date his; I wonder whether you can see from the envelopes when they were posted or, if not, whether you know the year in which the Strachey family moved to near Regents Park and he helped them to find the house? — One other question, do you know anything about the French correspondent; the address is Paris. 28 Rue Ballano (or Bassano) and it begins "Cherie" and is signed with an illegible Christian name which might be "Marie". Date Dec. 27th 1880. — I am much interested by the letter about the girl who was going to Gorton, if I can decipher her name (it looks like Martha) I ~~shall~~^{may} be able to find out whether she was at Gorton and what happened to her during her years of study.

I don't want my questions to give you a lot of work; don't trouble to answer if answers are not easily available.

Yours sincerely Joan Bennett.
