Dear Emily

Here are Miss Blackwell's

• Mr. Gomey's letter. I thought you would like to see the latter, it is so kind; too kind, one's unbelieving heart is disposed to say. I have a

good & a bad morsel of news to tell you, both new to me within

The last hour: 1st, (good) Mr. Heisch

(Chemist here, will admit me into the Laboratory for the Summer Session with much pleasure &c.

2nd (bad) Mr. Plattitt is going away to a private practice, & I shall lose a very useful friend. He had been

rounding Mr. Heisch at my request
and as we were going to the Schuy
to see him, he told me his new
plans. I have been so much with
him, that it seems a nuisance to
have to break all intercourse off in
this unexpected way.

With love

Yours ever

E. Farwell
