My dear Miss Morrison.

I have just  
learned from Miss Morrison  
that Sir J. Lister has  
been writing to Sir M.  
Hector Beuch to present  
to present and receive.

It is too long to send Sir  
M. in a gallery or hall

he will leave to direct  
the premises himself.

I am writing to you  
Helen's being much better  
who writes privately to Sir  
M. & the same to Dr  
Bele Taylor.

Can you do any political

supporting Sir Michael's  
admission - high or low.  
I wonder what time  
his decision? - This will  
come in my way, not  
my scientific matter - an  
allusion to his ten or my  
opposition - but simply  
to express the sect's feelings  
of many of Sir Michael's  
constituents at his decision.

If I can manage this I  
will be the best thing for us -

I fear the Company of  
Hygiene & all this  
stuff will give the enemy  
a dreadful lift - & what  
can we do without Bryan?

Miss Brewster's Memo  
while the British they were with  
I have the counter office  
ever & yours
