Dear Miss Phillips,

I am desired by the Elections Sub Committee of the London Society for Women's Suffrage to convey to the Executive Committee of the National Union their regret that an official report forwarded officially by themselves to the "Common Cause" should have been inserted in today's issue with the omission of the final paragraph.

In the opinion of my Committee this treatment of a signed communication from a Committee of the Societies in the National Union is dangerous and I am desired to ask for an expression of opinion upon the point from the National Uniop Executive Committee.

Yours faithfully,

P.S.
