My Dear Miss Alderson,

Very many thanks for letter, and
thank her decision of the Com^{tee} about Miss
Helen Wright. She made a very favourable
impression on me on various occasions
when I have been speaking of meetings
which she had organised.

I shall be very much obliged if you
will express to the Prof. Warden
Pr. S. fund Com^{tee} my regret for
my absence tomorrow. I do hope

you will not be content with a few days

rest only, but will take a real holiday

as far as that may be possible.

Do make it possible. I am certain

people cannot go on continuously

with work without harm coming of it;

and your work requires so much thought

& involves so much responsibility

that you require a rest every few

times & have quite as much as any

of us, and near than most.

Was anything discussed at last Thursday's

Can it about encouraging our Societies

to organise food & thrift Campaigns

rather on the model of the one at

Abford? I have a letter from

Lady Wainbone's secretary asking

when I can see her (Lady W) &

~~if~~ This is about the Women's War

Scanning League & if we have any

plans in the North W.S.S. I should

like L. Sum about them. In pledges
required of the W. W. & L. I. seem to ^{me} ~~be~~
to have people with £10,000 a year in
view in the main.

We have had very broken weather but have
managed to be out of doors a good
deal. We are in the midst of splendid
downs. Ever ever sincerely

M. J. Fawcett
