

**“ It’s women and
children first these
days ! ”**

“IT’S WOMEN AND CHILDREN FIRST THESE DAYS ALL RIGHT”

Whether it's a bombing raid, a rise in prices, a cut in wages or social services, it's the women and children who get hit first nowadays. So, more and more women ought to be first and show the way to put things right.

WE KNOW WHAT WE WANT

We **don't** want a Government that to-day helps Fascism to bomb Spanish and Chinese children, and to-morrow will be sacrificing our British babies for the sake of power and profit.

We **do** want peace, a happy home, a chance for the children, security and a better life.

CAN WE WIN IT ?

We are quickly learning the way to get what we want for the sake of our families. Actions speak louder than words! And united actions are the best of all! So we are getting together in unity to fight the National Government, enemy of all decent people. Getting together to win the better life we want. And our will be the last word!

COME TO THE MEETING !
