Dearest Pippa

I believe you are now at home again & I trust all the better for Mediterranean airs & colours and people.

I must apologize for the numerous delays with the picture, though the blame is really due to the dreadful race of picture framers. First I was surprised to find it still in the shop when I looked in ten days ago; but as the colour was much too light I left it with them explaining how it should be darkened. When next I called, though a little better it was still much too late. I then had it sent here & have tinted it myself rather amateurishly & timidly.

'They' (Chapman, 241 King's Road
SW3. FLA.0674) have now
promised to fetch it tomorrow
morning & deliver it to you.

In the afternoon I shall be
'commuting' homewards again, but
expect to be working here ~~on~~ most
mornings next week when there
should be, one afternoon, a
chance of calling at 51

With love
ever yours

Henry

I cannot find the address of
the secretary of the Fawcett Society,
could you angelically ring it
to Chapman - for the frame account?
