Feb 13. 1913

Dear Mr. Nash.

I had about 2 hours
this morning, though it did
not seem so long at the time.

They touched upon most
of the questions in *ypicis*,
of which they have not yet
given me a copy. When
they do, I will send it you.

In discussing museum
ports, I was able to bring out
the facts I told you about

women palace-banquets;
but there was no opportunity
to say anything about the
Lorraine Smutle, or any of
the unestablished parts. Will
you tell her this & thank you
for sending me her letter.

They kept a good deal
on training in Social Study
courses & Settlements & took
a long time in discussing
the advantages of having a
woman C. P. Commissioner.

On point that seemed
to interest them particularly

was that of the subjects
in which women had taken
Fruit classes & the promise
of scholarships for women.

They only asked me
one question, I think, about
health. I dressed in
the statistics but could
not pursue the subject.

I believe I proposed
that Miss Anderson should
be made a Principal
Clerk! I hope she won't
mind. It is rather difficult
to get out all you want to

say in the form of questions
& answers.

Unfortunately as bad
luck would have it, I was
prostrated all day yesterday
with a bad sick headache
& could not look over all
the information I had
collected. In consequence,
I felt very stupid this
morning & do not look
forward to seeing my
statements in print.

Thank you very much for all
your help. I will send back
my Charlesworth's, L.G.B.
papers. Was there anything
else you specially want back.
Yours sincerely
E. Pease

The Commission
asked me to lunch
afterwards - I learned
that they had been
much charmed of
Mr. Courtney's thought
his evidence is important.
