3785

im Alfeld a. L.
Hannover.

Antonia says it can be done in short and believe me

I write to ask whether you will stick to your idea of coming over to pay us a visit here during your holidays. It is so little we can offer in the way of entertainment but I feel timid about pressing you to a comparatively expensive journey, but still it is not a long one till Hannover and from there about an hour to Alfeld, where I would fetch you with the carriage. We have all been looking forward to your coming and I need not

Yours
Nelly
Order

tell you that you would give us real pleasure
by your visit. My sister Ellen tells me
there will be a room free for you during
the whole month of August, and in fact
it from the 20th of July, but I know your
holidays do not begin before the end of this
month, so that there will hardly be a chance
of your coming before the beginning of
August. Only do not let it be taken,
please, for as my holidays close on the
10th, I ~~shall~~ not see much of you any
how and should be very sorry to lose even

a day. I came here on the 1st of July in very
hot weather, just in the nick of time to
enjoy the last strawberries and lime-
blossom. But there came a change yester-
day after a thunderstorm somewhere,
and I am afraid we are going to have a
spell of cloudy coldish weather now.
Let us hope that you will have only
the better chances in August.
My mother had a very speedy recovery
at the "Klinik", so that she was able
to come home to us on week before Whitsun-
tide and left for Brunnhensen a fortnight
