

AL/1643 Sandford Lesson  
Cheltenham

My dear friend Jan 14/19

I was indeed glad to  
have a few lines from  
you as I was just con-  
templating sending for  
a copy of your new work  
which I should and  
hope you will like it  
more than the former  
among friends &  
some libraries. I  
shall be so glad to hear  
if you see Miss Keeney  
she is still working in  
Paris for the great cause  
you will find she has  
a sympathetic soul

I am sending her a  
copy of my book  
and also copies of many  
recent pieces. <sup>through</sup> ~~strong~~  
Jennings. I wish  
we could meet before  
you leave England.  
My daughter has been  
in Paris for some  
months working at  
the American Consulate.  
She may be soon <sup>trans-</sup>  
ferred to Lyons.

You have not evidently  
heard that my dear  
Mama had passed away  
in May last very peacefully  
and painlessly. There

had a long neck down  
and back to be very  
firm. I suppose the  
long journey told upon  
me more than I knew.  
I am now laid up  
with rheumatism  
and hope to be all right  
shortly. I am remaining  
in the home and thinking  
it into a home for invalids  
I can take from  
and have fitted <sup>up one</sup> ~~up one~~  
room, [no stairs] for chronic  
neural & rheumatic cases -  
1 room for asthma & bronchitis  
cases can be kept at an  
even temperature day & night  
and the room for mother  
cases without a doctor as  
my little - mother can take  
these. Doctors tell me

It is an ideal home of  
rest and certainly  
it should be famous it is  
attractive each room has  
its own scheme of color  
and they look very <sup>color</sup>  
& pleasing. If you know  
of anyone who is <sup>troubled</sup>  
please check <sup>up</sup> <sup>with</sup> <sup>me</sup>  
I am sure I can  
make patients comfort-  
-ble and well needed  
treatment of light  
color and diet.

With all best and  
affectionate wishes for  
the two of you

Yours affably  
& devotedly  
Rosa L. Loring
