Dear Miss Tallises

would it

be possible, when you are

sending propaganda &

advice to women Suffragists

to suggest that all men

(in the least willing) should

present one of their votes

(when they have two) to

Some woman interested in  
Woman's Suffrage. in order  
that it may be used  
according to her views?  
I mean. that the man  
will vote according to her  
directions. Also most  
important. the woman  
should tell the canvassers  
that she has a vote to  
make use of that she  
will not bestow it on  
any one opposed to

woman's suffrage. It  
is better, I think, not to  
promise it any where,  
except for an undoubted  
champion of woman's  
Cause!

In great haste

Yours sincerely

(M<sup>rs</sup>) / Bessie Drayton

P.S. I know of 2 gentlemen who  
made the offer. I will carry  
it through.
